

EVERTON

CHAIR

CEO SERIES

As the average length of the workday increased, and more and more people began spending more time sitting, the realization dawned that chairs with additional support were needed. Ultimately, this is what spawned the ergonomic movement, which saw the creation of office chairs with much better lumbar supports, fostering better overall posture.

WOODEN SERIES

These are hands down the most expensive of the various types of desk chairs sold. They're high end, with better padding for added comfort, and most of them feature a full range of ergonomic features.
